CAST IRON FIRE FURNITURE

# Cast iron plates

Lunaway's fireplace plates are not only a valuable ornament, but also ensure that the fireplace will last longer thanks to the prestigious qualities of cast iron, which stores and reflects heat for a long time even after the fire has been put out.

In order to make the most of your fireplace's heat, we recommend covering it entirely in cast iron; in this way you will protect both the firebox area, preventing the interior from crumbling, and the walls, which will no longer absorb dispersed heat.

As a rule, the suggested height is at least 50 cm, enough to cover the living flame, but if the fireplace allows it, it is advisable to install higher plates to better recover the heat, even of the fumes, and to completely cover the masonry or refractory part for an optimal aesthetic result.

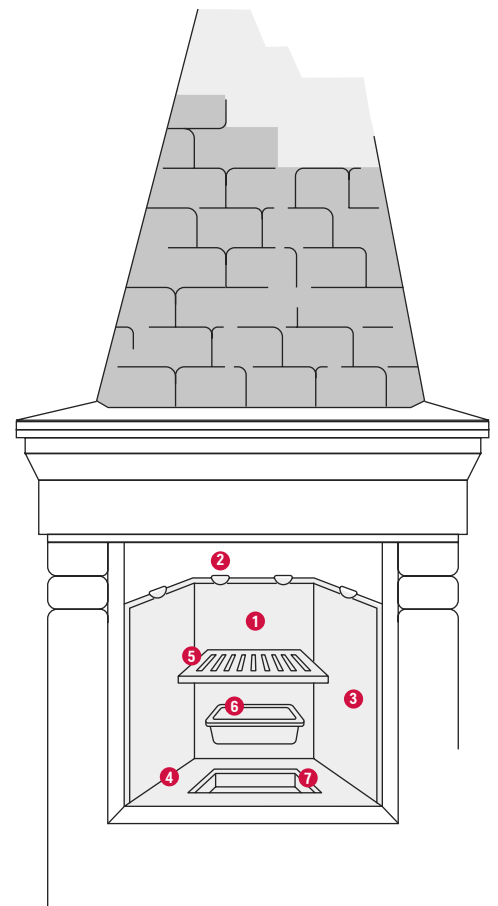

## GUARANTEE OF DURABILITY

*Cast iron plates have a very long life. We can still find original 18th century plates in some buildings of that era. It is a matter of following a few simple precautions.*

- + *Install with expansion in mind.*
- + *Avoid putting out the fire with water.*
- + *At the end of each season, remove ash deposits with an iron brush.*

EXAMPLE 1

For correct installation, it is recommended that the base be fitted first and then the front and side panels. The base does not need to be fixed, its own weight is sufficient. However, it must be positioned level and, if necessary, a bed of sand should be placed, which will help to level it out and enhance the cast iron's heat refraction properties.

If, on the other hand, we want to use **GRAPIN** or **GRASTAR**, we must first drill the plate with a diameter 11 drill bit for iron in the upper part (or request drilling when ordering), then insert the clamps and clamp the plate. In case you want to install plates with a negative inclination, holes must be holes in all 4 corners.

EXAMPLE 2

The plates can be fixed in different ways. With **GRALION**, **GRALILY** or **GRA** clamps we will position the plates slightly inclined and after having made the holes in the refractory, we will insert the clamps and clamp the plate leaving a tolerance of a few millimetres for expansion. The hole for **GRA** and **GRALILY** must be made 1 cm above the upper side of the slab and 5 cm inside with respect to the external side.

## FIXING CLAMPS

Models that require a hole in the plate.

ART.	DIMENSIONS	Kg	€
GRAPIN	2 x 10 x 2 h cm	0,10	8,50
GRASTAR	5 x 10 x 5 h cm	0,20	8,50

Fixing models without hole on the sheet.

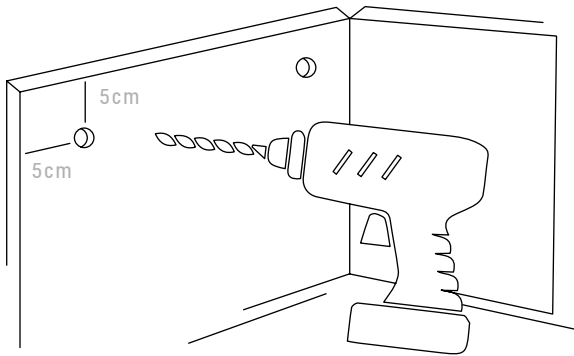

ART.	DIMENSIONS	Kg	€
GRALILY	3 x 10 x 3,5 h cm	0,10	8,50
GRALION	2,9 x 1,2 x 3,48 h cm	0,15	8,50
GRA	3 x 8,3 x 2,5 h cm	0,20	6,00

The price is per pair.

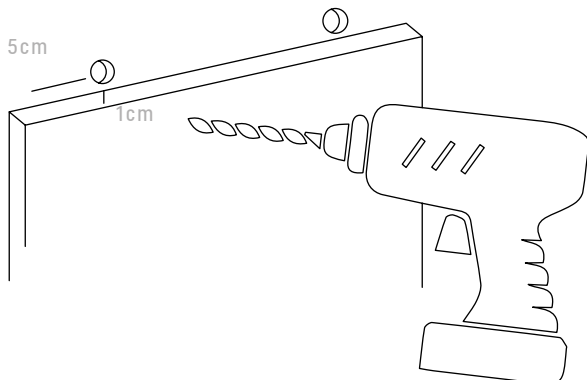

## DRILLING OF CAST IRON PLATES

ART.	DESCRIPTION	€
DRILL	PAIR OF HOLES FOR GRAPIN O GRASTAR	10,00

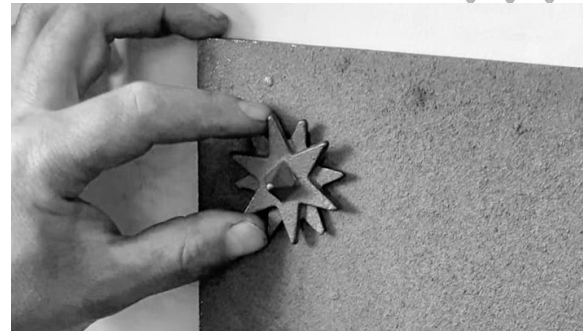

It is possible to drill the cast iron plates with a normal drill and a steel drill bit. The hole diameter must be 11 mm for the GRAPIN model and 7 mm for the GRA STAR model, in order to allow for expansion while the fireplace is in use. The 2 holes will be positioned 5 cm from the upper edge and 5 cm from the outer edge. (For the HORSES FO 032 model the holes will be positioned 8 cm from the upper edge and 8 cm from the outer side).

If GRALION or GRALILY are used, the plate will not be drilled but only the refractory will be drilled with a 7 mm diameter concrete drill bit. For GRA it will be necessary to drill 2 consecutive holes. In both cases, we recommend impregnating the threaded rod with high-temperature mastic.

Alternatively, the plates can be inserted into fireplaces with the **FEET** cast iron supports, which do not require any fixing.

# Customised smooth plates

Smooth plates are ideal for coating the walls of the fireplace as well as for making the base. We have more than 30 different formats of smooth plates, but if you need different sizes, you can request them to be cut or shaped to size.

Any shape and size is possible (up to a maximum of 140 x 120 cm). To do this, a plate with dimensions larger than those to be obtained must be selected and all internal dimensions of the sides must be indicated in detail. If it is a shaped cut, it is advisable to send a drawing or sketch and, if the hole for the grate and ash tray is also required, the correct position must be indicated.

DECORATED PLATES

# Customised decorated plates

It is possible to insert on a smooth plate the decorations you have seen on the previous pages from the minimum size indicated.

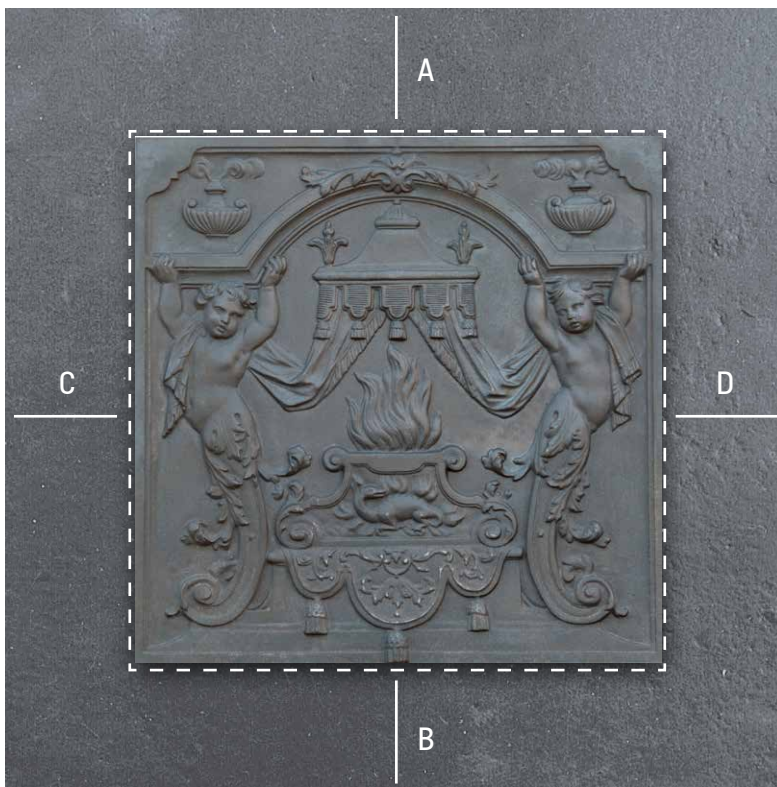

## Example:

**Figure A** the plate model FO 027 (Putti) has a size of 80 x 80 cm; if we want to create a fireback with dimensions 95 x 95 cm we will use an LL100100 that we will cut to size. The decorated plate will be positioned in the centre, if not otherwise required, and will be fastened by means of screws from the back.

## Note:

For this type of work, we recommend that you contact our sales department who will help you find the best solution for you.

FIG. A

# Customised cast iron coats of arms

It is also possible to make customised moulds with coats of arms, rosettes, dates and names by requesting the modelling. Our craftsmen can faithfully copy designs or bas-reliefs and the mould can be used not only for fireplace plates but for any need.

## HIGH RESISTANCE

For an excellent result, cast iron plates can be treated with a special lamellar structure paint, heat-resistant (up to 350°C), highly protective of several colours that give them a brighter, cleaner and decorative appearance. Also ideal as an end-of-season treatment.

## PRICES

List prices are exclusive of VAT and with reference to standard articles.

## GUARANTEES

The goods are guaranteed in terms of quality and construction of the materials used. Any defects in construction entitle the purchaser to a free replacement of the item or of part of it.

The right to replacement extends to the case if the article is damaged during transport, provided that such damage is declared to the carrier upon delivery of the goods and are noted in the delivery note.

## RIGHTS OF CAST SRL

CAST SRL reserves the right to make changes in the construction, measurements and weight of the items indicated in its catalogues and sales lists without prior notice.

## JURISDICTION

For any disputes arising from the sale relationship, the competent court shall be the Court of the registered office of Rome.

## PRODUCT DISPOSAL

All the products in the catalogue are made of cast iron and steel, metals that are sustainable because they can be recycled an unlimited number of times, with considerable savings in raw materials and energy.

The foundry, in fact, makes it possible to reuse metal products that have reached life by returning them to their original condition. A perfect example of circular economy.

## PACKAGING

The cost of standard packaging is included in the price. Standard packaging means packaging suitable for providing adequate protection to the goods.

We are happy to announce that we have completely eliminated the use of plastic in our packaging. Now we use only paperboard, protecting your purchases and reducing our ecological footprint. Thank you for contributing to a greener world with our products!

## SHIPPING

We ship to all European countries and the costs are updated on our website with reference to the location of destination. The cost is calculated according to weight (maximum cost 4.00€/kg). Delivery of the goods will be by courier and unloading will only take place on the ground floor and not on upper floors.

Barring unforeseen circumstances of the courier, delivery of the goods will take place within 2 working days from the date of dispatch for deliveries in Italy and 6 working days for deliveries in Europe.

## RETURNS AND REFUNDS

If for some reason you are not satisfied with your purchase, you can return one or more products purchased within and no later than 14 days from the date of delivery.

Return shipping costs in Italy are free of charge from the moment the Lunaway staff authorises the return, the products must be delivered to the authorised courier within and no later than 14 days.

Refunds will be made after we have received and verified the integrity of the product and will be made using the same method of payment. Cast s.r.l. reserves the right to refuse returns if communicated, sent or dispatched after days or if the products are not intact. All items are checked before shipping.

Items returned with damage, or any obvious changes, will be rejected and sent back to the customer, who will be charged the normal shipping costs (cash on delivery payment). If you receive defective or faulty goods, please email [info@lunaway.it](mailto:info@lunaway.it) immediately. Replacement of an item of the same model and size is possible subject to availability in our warehouse, with free shipping. If the item cannot be replaced, normal refund procedures will be initiated. To make a return, first of all write an e-mail to [info@lunaway.it](mailto:info@lunaway.it) indicating the reference number of the delivery note or invoice, the article code, the date the order was received and the reasons for the return. Once we have checked that the causes conform to our conditions of sale, you will receive an e-mail with instructions on how to contact the courier to deliver the goods, which must be done no later than 14 days from the date of authorisation of the return.

The PDF label will be sent Your later, which you should print out on a normal sheet of paper and stick onto the package (also with tape). We recommend that you keep the original packaging. This can be reused (if intact) by simply replacing the label. It is not necessary to return an entire order, but only a part of it.

A romantic scene featuring a man and a woman in silhouette, looking at each other in profile. They are positioned in front of a bright, glowing fireplace. The room is dimly lit, with warm light from the fire and string lights above. The background shows a wooden wall on the left and a dark space on the right.
